

Logo unveiling of MME Department and Inaugural Ceremony of CAD Laboratory

The department of Mechanical - Mechatronics Engineering logo unveiling and the inaugural ceremony of CAD LAB (Computer Aided Drawing / Design Laboratory) was held at 2 pm, in LT -5 on 6th of March 2014 in the golden presence of Prof. S. S. Gokhale (The Director), Deans, HOD's, other faculty and staff members along with the students of MME Dept.

The program began with *Saraswathi Vandana* followed with welcome address by the Head of the deptt., Dr. Kamal Kishore Khatri. He described the objectives, proposed outcomes and importance of Engineering Graphics and also explained the bonding between the specialization such as robotics, automation, aircraft engineering, biomedical systems, space science technology etc. The department logo was unveiled by the Director LNMIIT, Prof. S. S. Gokhale, by playing a video presentation prepared by a group of students emphasizing the growing advancement of technology showcasing the human intelligence and evolution of society. The presentation ended with the logo of the branch which received acclaim from all around. The logo highlighted the diversity of the department at the same time connecting values and professional ethics in an innovative way. Prof. S. S. Gokhale addressed the audience and mentioned about the aims of the Mechanical Mechatronics Department and its requirement in the rapidly growing world. He also praised the students for their efforts and urged other departments to come up with their own logos.

After this, in the CAD laboratory, ribbon cutting ceremony by Prof. S.S. Gokhale took place. Later, he visited the engineering drawing hall and interacted with the students reviving the memories of his college days. The event was concluded by distribution of sweets among the attendees. A couple of photos taken during the event along with the logo are herewith attached.
