“CNC Workshop”

of the 40 students who attended the workshop.

The much awaited CNC workshop took place 21-23 October 2016. This event had already created a lot of anticipation among the students which was seen by their substantial participation in the same. The workshop was organized by “Dr. Vikram Sharma” and “Dr. Deepak Unune” and together they kindled curiosity in the brains

The LNM Institute of Information Technology

The students were made familiar with the basics of CAD, CAM, CNC programming, Computer aided programming and were also given hands on Training on CNC machines. The 3 day long workshop finally concluded on 23rd of October on a high note with content and well trained undergrads.
