### Social Work

- On Independence Day chocolates and sweets were distributed to the construction workers and their children.
- A visit to **Surman Sansthan** was organized where we met did ji who inspired us with her great work, that we also can also do something substantial which can make a difference.
- In winters, old clothes were collected and distributed among needy people at various places in Jaipur city.
- A visit to the **Human Life foundation** overwhelmed and motivated us to do some work, when we saw them doing the good work with so much dedication and simplicity.
- And our one of the most successful endeavor Mess workers Education Program was also started again this year, where we teach mess workers and children of construction workers.

### Discussions

- This year we regularly organized our meetings on various topics such as honesty, simplicity, truth etc., where members shared their experiences and discussed their view points.
- We also tried to incorporate various things and learn from them. In that process, we watched the movie **PK** which gave us a new perspective of looking towards religion.
- In our lives, if we have a good focus and concentration then we can do our work more easily and in a better way. So we organized a lecture on *How to increase concentration and focus* in the lecture hall.

### Religious Activities

- This year we started our first major event with the Janmasthanmi Celebration. We all gathered near the temple at midnight and welcomed the incarnation of Shri Krishna.
- Saraswati Puja was also done with great fervor and enthusiasm among the students and faculty.
- At one fine morning, we went to visit the **Chulgiri jain temple** on the top of the mountain. Climbing so many stairs was fun, and also we enjoyed simple Jain food there.
