Hello everyone,

Our congratulations to you on your success with the 2020 MSCA IFs! Imperial won 34, with three more on reserve lists which is an excellent result.

To get started on the next steps on the grant preparation, please ensure that you have added your Research Services Manager for your Faculty as Project Financial Signatory to the project. Go to the My Projects area of the Funding and Tenders portal, click on Actions beside the project, click on Manage Consortium, and you will see the options to Add Roles. Please check if your RSM is already there, as I know in some cases they have been added, but we in the EU Team are not able to do that for you from any kind of central login.

Natural Sciences – Brooke – b.alasya@imperial.ac.uk

Engineering – Shaun – s.p.power@imperial.ac.uk

Medicine – Scott (via Nataleen) – s.wheatley@imperial.ac.uk

Please then can you add me (james.lloyd@imperial.ac.uk) as Project Legal Signatory.

We and RS teams will then be able to access the file.

You will be getting several emails from system – to complete Grant Agreement Data, to sign Declaration of Honour – and your RSM will take that forward with you (e.g. verify info/start dates/funding) and they will let us know when the file is ready for signature. Many of you will have queries about start dates with COVID making future planning difficult; as such we recommend discussing this between fellow and supervisor. For many of you an open start date may be the best option for flexibility, but we can look at this on a case-by-case basis.

You might also be receiving emails direct from your project officer. Likewise, please forward those to your RSM. The officers might have specific questions about the content of the project or want verification on certain questions.

If you would like to reply to this email, please include in cc only the RSM for your Faculty on your response.

Best wishes,

James.
